Key Features

Provides smooth and powdery feel on skin

Boost Viscosity

Soft focus and blurring effects

Reduces Tackiness of formulations

Key Applications

Color Cosmetic

Sun Care

Primer Skin Care

Application

CHT-BeauSil™ GEL 8020 is a high molecular weight specialty

silicone elastomer carried in cyclopentasiloxane (D5). CHT-

BeauSil™ GEL 8020 provides a non-tacky, powdery-smooth feel. CHT-BeauSil™ GEL 8020 has been used in a wide variety of

personal care applications boosting viscosity, aesthetics and soft focus.

Use and Cure Information

This product can be incorporated directly into the oil phase of the final formulation. This product has been used at any weight percent in a final formulation and will disperse easily in non-aqueous diluents with minor agitation.

Health & Safety

Read product and safety data sheets before handling this product for physical and health hazard information. The safety data sheet is available from your CHT representative.

Limitations

This product is not intended for pharmaceutical use.
