

## ICM 1651 Ready to use water repellant for exterior glass

### Description

This product is a ready to use water repellant for exterior glass viewing windows. This product repels rain and snow while reducing ice and grime build-up for improved visibility. This product is for exterior use only.

### Key Features

- World class surface reactive hydrophobic glass treatment
- Long lasting versus non-reactive versions that dominate the market today
- Easy to apply one pot treatment
- Imparts "self cleaning" effect to vertical glass surfaces

### Key Applications

- Exterior glass water repellent
- Car Care

### Use and Cure Information

Clean the exterior glass surface and apply product using a clean cloth. Wipe the product on with firm, circular, and overlapping strokes. Once product has been applied, allow slight haze to appear and remove it with a dry cloth until clear. For use on exterior surfaces only.

### Limitations

This product is not intended for pharmaceutical use.

### Property

#### Product

Appearance  
Chemistry  
Density (g/cm<sup>3</sup>)  
MIT Free  
Non-Volatile Content (%)  
Ultralow cyclic content

#### Addition Rates

Dosage - 1

#### Solubility

Solubility - Dimethicone  
350cst  
Solubility - Ethanol  
Solubility - Water

#### Storage

Max Storage Temperature  
Min Storage Temperature  
Packaging  
Shelf Life
